WHAT IS A CORRIDOR MANAGEMENT PLAN?

The CMP is a “*grass roots*” *level participation project* in which local desires and issues are documented to serve as a planning guide for a state-designated scenic road.

A CORRIDOR MANAGEMENT PLAN IS:

- A planning effort
- A vision and blueprint for corridor management
- Ideas for incentive-based participation

A CORRIDOR MANAGEMENT PLAN IS:

- A plan that regulates land only within the ADOT right-of-way
- A plan that opens up new funding sources
- Suggestions to enhance the natural views and scenery

A CORRIDOR MANAGEMENT PLAN IS NOT:

- A top-down land use regulation plan
- A mandated document that supersedes local authority
- A plan that restricts private property rights

A CORRIDOR MANAGEMENT PLAN IS NOT:

- A plan that mandates regulations for viewsheds
- A plan that allows ADOT or the federal government to regulate land use outside the roadway right-of-way
- A list of mandated new taxes

SIX INTRINSIC QUALITIES

- Scenic
 - Beauty, whether natural or human-made
- Natural
 - Minimal human disturbance of the natural ecological features
- Historic
 - Landscape, buildings, structures or other visual evidence of the past

SIX INTRINSIC QUALITIES

- Cultural
 - Visual evidence of the unique customs, traditions, folklore, or rituals of a currently existing human group
- Recreational
 - The road corridor is used for recreation
- Archaeological
 - Visual evidence of the unique customs, traditions, folklore, or rituals of a no-longer existing human group
